YOU'LL REALLY ENJOY GROWING OUR AMARYLLIS

Following of Simple Instructions Will Result in Success

Amaryllis (a classic name) the variety really grown and so popular, is *A. Hippeastrum Vittata* Hybrids and are part of the *Amaryllidaceae* Family. They are of the easiest culture, can be grown in a city or country home having a sunny window. For best success they should be grown in pots the year around, 6 or 7 inch pots for the large blooming size bulbs. A good garden soil with a little rotten cow manure, some moss peat and a dash of sand is best.

Upon receiving your bulb, pot same immediately, have good drainage and leave top of bulb exposed. Place same in sunny window, keep well watered (but do not let stand in water) until it blooms after which you must keep same growing until the weather is warm enough to plunge outside in a sunny place. Remember—keep watered during growing period. They usually bloom in winter when flowers are most appreciated.

If your bulb is exposed as it should be, plunge same, pot and all, so that bulb is covered at least one inch and keep growing until September when you take pot up and store in frost-proof basement or any other dry place. About January bring same up to the light and begin to water it. Blooms will appear shortly. Repotting should be done before plunging out doors. Do not disturb at other seasons of the year.

Our Hybrids are of the most beautiful and classic flowers that grow. They are of the easiest culture known. They are even more beautiful in coloring than the orchid and much larger in size. The colors in our Hybrids range with self-colorings from the darkest of red, all shades of pink, down to the purest white, also many are striped with several shades of red and pink while others are dotted throughout.

Schaefer's Amaryllis, Hippeastrum Hybrids

Schaefer's, Amaryllis Hippeastrum Hybrids, dry bulbs for delivery September to April 1st. Separate colors; light shades, striped, salmon pink, bright red, crimson.

First size 2½" diameter up.....	60c
	Per Dozen, \$5.00
Second size 2" diameter up.....	40c
	Per Dozen, \$4.00

Third size 1½" diameter up.....	30c
	Per Dozen, \$3.00
Fourth size 1" diameter up.....	20c
	Per Dozen, \$2.00
Less than 1" diameter.....	Per Dozen, \$1.00

~~White, double above prices,~~ all post paid U. S. A.

Colors not guaranteed or mixed one fourth off on above.

Schaefer Amaryllis Hippeastrum Vittata Hybrids

Schaefer's Amaryllis Hippeastrum Vittata Hybrids, guaranteed to bloom within a few weeks. They are started and show at least one spike when sent out. Light shades (lower petals usually pure white).

Each \$1.50—Per Dozen, \$12.00

Light pink shade.....	Each \$1.00
	Per Dozen, \$9.00
Bright red	Each \$1.00
	Per Dozen, \$9.00
Crimson	Each \$2.00
	Per Dozen, \$20.00

Three each of above—Per Dozen \$12.00

Hybrids, color not guaranteed

Per Dozen, \$9.00

Equestris

Amaryllis, Equestris, salmon pink shades grown the same as Hippeastrum varieties. Winter blooming, smaller blooming. Rest September to January.

Bulbs, 25c Each—\$2.50 Per Dozen

Sprekelia

Amaryllis Formosisimo; color, dark crimson; flowers, orchid shaped; bloom April, May or June. Rest September to March. As a garden plant, grow same as gladiolus.

Bulbs, 35c Each—\$3.50 Per Dozen

Chlidanthus

Amaryllis, Chlidanthus Fragens, small yellow Amaryllis, closely allied to the Zephranthus and blooming in the summer time, has to have rich soil, grow same as Zephranthus but start earlier in March.

Each 10c—Per Dozen, \$1.00

Grinum

Amaryllis-Crinum, summer blooming, pink or lavender. Need rich moist soil. Hardy in south with slight protection.

Bulbs, 50c Each—Per Dozen, \$5.00

● Schaefer's Hybrid Amaryllis ●

Clivia

Amaryllis, Imontophyllum. Beautiful evergreen house plant during the winter. Easy to grow but very scarce. Orange colored bloom in trusses of 20 to 40 blooms. Flowers in February and March stays 3 to 6 weeks. Grow in partial shade. Do not dry off like Hypeastrum, water sparingly during resting period, September to January.

Bulbs, Blooming Size—\$2.50 Each

Zepheranthus

Zepheranthus—Amaryllis, Carinata, also called Fairy Lilies or Zephr flowers. Summer flowering. Rose, pink. Usually planted 6 bulbs or more in pans.

\$1.00 Per Dozen

Zepheranthus—Amaryllis—Candida, fall blooming. White.

\$1.00 Per Dozen

Amaryllis Hippeastrum Hybrid seeds. Ripens during spring months. Sent out in June and should be sown not later than July. Full directions for growing sent with each order. My own savings, hand polinized. Positive results cannot be guaranteed but you will find it very interesting to try growing some. The chances are in favor of getting something new and better than what you have seen before. Personally I have been at it for 20 years and it is still fascinating.

Saved from Dark Red Crossing.....	25 for 60c
	\$2.00 per 100
Saved from Bright Red Crossing.....	25 for 35c
	\$1.25 per 100
Saved from Salmon Pink Crossing.....	25 for 35c
	\$1.25 per 100
Saved from Light Colors.....	25 for 35c
	\$1.25 per 100
Saved from White Crossing.....	6 for 25c
	\$5.00 per 100
Mixed seed from all of the above, plus mixed crossing.....	25 for 30c
	\$1.00 per 100

NOTICE!

Please do not send orders for plants and bulbs totaling less than \$1.00
